This Conference is expected to attract well over 1200 delegates and is recognized as the premier technical session in the province. The Conference will provide speakers with an exciting opportunity to present papers on a host of subjects related to water and wastewater issues of interest to water and wastewater engineers, managers, operators, manufacturers, consultants and suppliers on the following topics:

- ◆ Drinking water supply
- ◆ Drinking water treatment
- ◆ Drinking water distribution
- ◆ Drinking water disinfection
- ◆ Drinking water system management
- ◆ Small drinking water systems
- ◆ Water conservation
- ◆ Water sustainability
- ◆ Wastewater collection
- ◆ Wastewater treatment
- ◆ Wastewater management and reuse
- ◆ Small wastewater systems
- ◆ Decentralized wastewater systems
- ◆ Advanced wastewater treatment
- ◆ Organic residuals processing and recycling
- ◆ First Nations Water and Wastewater Operations and Infrastructure Management
- ◆ Cross connection control
- ◆ Stormwater management
- ◆ Drought management
- ◆ Flood management
- ◆ Project management
- ◆ Municipal operations and management
- ◆ Municipal Asset Maintenance
- ◆ Asset Management
- ◆ Security Issues
- ◆ Emerging technologies
- ◆ Operations
- ◆ Analytical technologies
- ◆ Emerging Contaminants (EDCs etc.)
- ◆ Service Delivery, Governance and Funding
- ◆ Water for People projects and programs
- ◆ A water or wastewater topic not noted above

Abstracts of proposed papers should be **250 words or less** in one or two paragraphs, on the [2009 conference abstract form](#), emailed to the Technical Program Committee at abstracts2009@bcwwa.org. **Please note target topic(s) on your abstract.**

Abstract templates, format and general information are available for download at www.bcwwa.org.

The deadline for submission of abstracts is **12:00 pm on November 30, 2008.**
